## PROJECTS AND HACKATHONS

*\*All projects can be found on my GitHub account linked above.*

**Blackjack**

- Developed a python program for a card game commonly played in casinos.
- It is a single user game which makes use of python essentials such as loops, conditionals, and functions.

**YouTube and X Clone**

- Recreated the front-end User Interface of the home pages of the popular websites YouTube and X using only HTML and CSS. This project involves several of the animations featured on the respective websites.

2024 Fisk-Belmont Social Justice Data Hackathon

## VOLUNTEER ACTIVITIES

**The Ripple Effect Foundation – Ota, Nigeria (Co-Founder)**

**JULY 2022 – FEB 2023**

**Educational Empowerment**

- Co-founded a charity organization with some colleagues with the vision to empower underfunded and poorly equipped public schools in our local community. After hosting 2 fundraisers within our first month, we successfully raised a million naira (\$3000) which was spent on purchasing books, laptops, printers and other classroom necessities for a selected underequipped public school in our community.

**Environmental Sanitation**

- Hosted an environmental campaign to promote cleanliness in our community titled "Keep Ota Clean". We cleared and recycled waste on the streets during our campaign as well as educated members of the community on the importance of cleanliness.
